Projects

UX/UI Designer & Researcher
Scaffold - Grant Tracking App

2025.09.02 - 2025.12.05

- Researched and organized grant and scholarship data across British Columbia, including application requirements, to support development of an eligibility checker feature
- Applied marketing direction and branding guidelines to final product presentations, ensuring visual consistency and clear communication
- Designed 3D icons and UI components used throughout the product interface
- Led overall UI/UX design for the profile creation flow, improving usability based on user feedback

UX/UI Designer & Researcher
Monstro - Expense Tracking App

2025.01.06 - 2025.05.16

- Translated user survey insight into an income management feature, designing UI and components based on the 50/30/20 budgeting rule for early-career users
- Produced motion graphics for the application's promotional video
